

Being a Great Online Learner

As of March 22, 2020, 121,000 U.S. public and private schools have been closed due to COVID-19. These closures affect at least 54.5 million students in the United States alone. Many districts and schools across the country are racing to prepare digital materials for their students to learn at home. Schools don't need a cafeteria and a playground to be successful. They do need learners. While teachers are being tasked with designing digital learning activities for students, it's the students' job to be a "Great Online Learner." One of the ways you can be a "Great Online Learner" is to stay on task, even when your teacher isn't sitting next to you. Are you a "Great Online Learner?"

Work through the activities below and keep track of your on-task behavior. What helped you stay on task? What made staying on task difficult?

Grammar: Verb-tense/Capitalization	X when done
<i>How can freewriting and grammar be used together to improve your writing?</i>	
<p>Complete 1  i-Ready ELA lesson and quiz each day.</p> <p>My scores: <input type="text"/> F <input type="text"/> M <input type="text"/> T <input type="text"/> W <input type="text"/> Th</p>	
<p>Freewriting: Watch this video on freewriting. In your journal ...</p> <ol style="list-style-type: none">  Based on what you heard in the video, write the guidelines for freewriting. Set a timer for 5 minutes. Try to write for the entire 5 minutes. Take a break, and then try it again! This time, set a timer for 10 minutes. Try to write for the entire 10 minutes. You could pick up where you left off the first time, or write about a brand new topic! Reflect: What did you enjoy about this experience? What was difficult? <p>If you are having a hard time, click here.</p>	

Writing From a Prompt

This time, use the following prompt to get started. Set a timer for 10 minutes. Then, start writing in your journal 📖. Don't worry too much about staying on topic, this prompt is just here to get you started!

Imagine that you can become invisible whenever you want to. What are some of the things you would do?

Reflect: Which writing activity did you prefer? Were you more successful in writing for the entire 10 minutes without a topic, or when you were given a topic? What topics do you think you could write about for an even longer period of time?

If you are having a hard time, click [here](#).

Verb-Tense Agreement

1. 📖 Watch [this BrainPOP video](#) on **verb-tense agreement**.
2. Then, complete the [quiz](#).
3. Define **verb-tense agreement** in your own words and provide 2 sentence examples.

If you are having a hard time, click [here](#).

Capitalization

1. 📖 Watch [this BrainPOP video](#) on **capitalization**.
2. Then, answer the [questions](#).
3. 📝 In your own words, write the rules of capitalization.
4. 📝 Write a sentence that uses capitalization correctly.

If you are having a hard time, click [here](#).

Read the first 5 paragraphs from this excerpt from Chapter 1 of [The Outsiders](#).

1. Choose a sentence that stood out to you.
2. Write the sentence you chose in your journal.
3. Underline the verb and the tense. Explain how they agree in your journal.
4. Choose a sentence that has 2 or more words capitalized.
5. Underline the capitalized words. Explain why each of these words are capitalized in your journal.

Revision

1. 📖 Watch [this video](#) on revision.
2. Find the **freewrite** you completed earlier in your journal.
3. Reading your writing out loud, underline or highlight each verb you come across. Did you use proper verb-tense agreement? If not, make any needed corrections with a colored pen, pencil, or marker.

4. Read your writing out loud again, this time looking for capital letters. Review the rules you wrote in your journal if needed. Correct any mistakes you find.

<p>Introduction to the Periodic Table</p>	<p>X when done</p>
--	-------------------------------

To understand the periodic table, you must first understand atoms.

- 1.) 📺 Watch this [video](#) from BrainPOP.
- 2.) 📺 🖱️ Watch the video again. Pause where needed.
Answer the questions in this [video guide](#).

In the BrainPOP video, you learned about the **atomic number**. Visit JLab and play the “It’s Elemental” game. Here are the steps:

- 1.) Click the [link](#).
- 2.) Choose the number of questions you want to answer.
- 3.) Select **protons only**.
- 4.) Click on “I’m ready! Let’s start!”
- 5.) Use what you know about atomic numbers to tell the number of protons in each element.

The periodic table lists all the known elements in the world.

- 1.) 📺 Watch this [video and listen to the song](#) 🎵.
- 2.) Get a journal 📖, a piece of paper 📄, or create a new Google Doc 📄.
- 3.) Which element names did you recognize? What were some elements you’ve never heard of before?

How is the periodic table organized?

- 1.) 📺 Watch this [video](#) to learn about groups and periods.
- 2.) 🖱️ Then, label the groups and periods on this [blank periodic table](#). (You can print the table, edit it as a picture file, or recreate it in your journal.)

Review vocabulary with the flashcards on [Quizlet](#).

Now that you know how the periodic table is organized, learn about its creator.

- 1.) 📺 Watch this TED-Ed [video](#).
- 2.) Get a journal 📖, a piece of paper 📄, or create a new Google Doc 📄.
- 3.) 🖱️ Summarize why Mendeleev was a genius!
