

### Animal Avatars!

Have you ever made an avatar? Do you know what an avatar is? An avatar is something you create on a computer or tablet. It is a picture that shows others who you are and what you like. Many online games have a character that is you - your avatar!

You have the chance to make your own avatar! Many avatars take the form of animals. What animal would you pick? What could your avatar look like? **As you complete your activities this week, think about what your avatar should look like.** Will it have big ears for listening? Or long fingers because you like drawing activities best?

Before you begin, find a notebook or some paper you can use as your Avatar Designer's Journal. The activity lists will tell you to write in your journal each day. You can write more if you want! **After you complete this week's activity list, draw your avatar in your journal.**
