## Fall is here

Welcome back to the 2025-2026 school year!! Summer has swiftly passed us by, as it often does, bringing us a brand new year to start fresh. It will surely be a year of successes and disappointments, trials and tribulations and laughter, as well as, some sadness, but will also be hopeful for the success and growth of our students. I hope this year will bring us all together to strive for the betterment of your children and many more good things to come. I always like to give ideas to my families about what they can do to promote better language at home. It always begins with books, read, read, read! Pick out books that will coincide with the seasons of the year, holidays that you celebrate, or life skills you value. Read to them, read with them or read together. Ask them questions about what they just read, see how well they remember the details of the story. Reading skills and the ability to be a good reader radiate into every other area of education and will affect their ability to function in the classroom and later as an adult in the real world.

### THEMES

Back to school – All about me poster

Literacy: –Splash reading game
